Remarks

5

Applicant appreciates the observations of Examiner during prosecution of this application.

In response to objections regarding Claim 2, said claim has been recast into Markush group language. This is intended to convey the original intent of this claim.

10

The new claim erroneously entered into the previously filed reply has been removed. It is no longer necessary in light of the revised Claim 2.

Every effort has been made to constructively amend each area of the claims and specification in accordance with all of the examiner's observations in the above-referenced Office Action. Accordingly, applicant respectfully requests a timely Allowance in this case.

15

Respectfully Submitted,

20

Michael A. Shippey, Ph.D.
